Summary

I'm an enthusiastic and detail-oriented Frontend Developer with hands-on experience in building responsive and user-friendly web applications. Skilled in HTML, CSS, Bootstrap, JavaScript, and React, I enjoy turning design ideas into clean, functional, and engaging interfaces. I'm passionate about writing maintainable code, exploring new tools and frameworks, and continuously improving the user experience. I work well in collaborative environments and take pride in delivering high-quality projects on time.

Experience

MERN STACK DEVELOPER

Black Stone Infomatics , Coimbatore | 08/2024 – 09/2024

- Developed APIs and managed databases using MongoDB, Express.js, and Node.js. Learned online hosting, SMTP, and API integration. Contributed to a E-commerce project with a collaborative team.

DATA SCIENCE

San Technovation, Erode | 07/2024 – 08/2024

- A Data Science internship using Power BI, Tableau, and Excel involves analyzing data, creating dashboards, generating insights, and visualizing trends to support effective data-driven decision-making

Training

MERN Stack Developer Trainee (Ongoing)

- Building full-stack applications using **MongoDB, Express.js, React.js, and Node.js**.
- Gaining experience in RESTful APIs, backend development, routing, and database management.

Projects

Library Management Web Application (Frontend Project)

- Developed a responsive web application to streamline library operations using HTML, CSS, Bootstrap, JavaScript, and React.
- Implemented book listing, search, and filter features for efficient browsing.
- Designed an intuitive, user-friendly interface ensuring real-time updates and smooth navigation.
